Walton, New York 13856

Dear Mrs. [REDACTED],

Your letter of 26 April 1966 to Governor Rockefeller has been referred to our office for evaluation. The event which you described in your letter was indeed the observation of a brilliant meteor. This event was witnessed by many citizens throughout the eastern part of the United States. The meteor was also photographed and it must have been a beautiful sight to see. You have been a witness to a rare phenomena which very few people ever get to see.

I am enclosing copies of photos of similar events, but your meteor must have been much prettier than those which have been photographed in the past. Thank you for your interest in reporting your observation.

Sincerely,

HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book

April 26, 1966

To The Honorable Governor
Nelson Rockefeller
State Capital Office Building
Albany, New York

Dear Mr. Rockefeller:

I have been reading a lot about objects,
^{that} students and citizens have cited in the sky.

In one specific paper it urged every
citizen to report such unfamiliar objects
to a specific department of the federal
government. It also gave the name of
the man which heads said department.

I didn't think I ever would have any
use of the valuable information and I threw
out the paper.

Would you kindly forward this information
to that department?

Last night, 4-25²⁵-66, still daylight,
approximately 8:00 P.M., day light savings
time, I called on a girl friend, a witness
to this information. We started out of her

house, to go for a walk to library, just down the street away, flying real low, was this very small object, leaving streak of smoke in the sky, it was no plane, real bright light, trailing was sparks from same, no noise, the bright light in front turning real red and the whole thing getting dimmer, it seemed to us it was going out, falling to earth, we know not where. What was it? A meteor does not have a trail of smoke after it.

Because of so many U. S. A. and Russian objects circling the world in outer space, I would like to report same for America's security.

If this information is of any value, to whom ever it may concern, I am happy to contribute same.

Very truly yours
(Mrs) ~~XXXXXXXXXXXXXXXXXXXX~~
